Core Skill

- Bubble.io: Backend workflows, custom events, responsive design, performance optimization
- Frontend: Tailwind CSS, Bootstrap, component-based UI, mobile-first UX
- Integrations: Google Sheets, Razorpay, SendGrid, TrueSigner, GSTZen, OpenAI, Twilio, WhatsApp
- Backend & Data: API Connector, scalable database structures, recursive workflows
- Dev Tools: GitHub, Postman, JSON, Make.com, documentation tools
- Soft Skills: System design, product thinking, user interviews, SOP documentation, collaboration

Additional Information

- Strong problem-solving and analytical skills.
- Effective communicator and collaborative team player.
- Committed to delivering innovative solutions that meet both user and business needs.
- Proactive in learning and implementing new technologies.

Language

- English: Fluent
- Hindi: Native
- Marathi: Native

Education Background

Sardar Patel Mahavidyalaya
Bachelor of Computer Application,
Completed in 2022

About Me

Bubble Developer with 1.5+ years of combined internship and full-time experience building full-stack web applications using Bubble.io. Skilled in designing scalable backend workflows, developing clean frontend interfaces, and integrating third-party APIs. Adept at collaborating on system architecture, documenting internal processes, and conducting user interviews to improve product outcomes. Passionate about performance optimization and reusable component design.

Professional Experience

Dot2Globe Solution India Pvt LTD
Associate Software Engineer
July 2023 – Present

- Built and maintained core product features using Bubble.io, focusing on modularity and scalability.
- Designed backend workflows and data models to support high-traffic applications and reduce latency.
- Developed responsive frontend UIs with a clean UX using Tailwind CSS and Bootstrap.
- Integrated third-party APIs: Google Sheets, Razorpay, SendGrid, TrueSigner, GSTZen, OpenAI, Twilio, WhatsApp.
- Participated in system architecture discussions, helping plan scalable infrastructure and component reuse.
- Conducted stakeholder interviews to translate user pain points into feature specifications.
- Led documentation of workflows and SOPs for internal knowledge sharing and onboarding.
- Implemented automations and tools to speed up internal operations and reduce manual work.
- Contributed to product planning and roadmap decisions alongside cross-functional teams.
- Improved performance of key applications by over 30% through optimization of workflows and data usage.

Dot2Globe Solution India Pvt LTD
Software Engineering Intern
Jan 2023 – July 2023

- Assisted senior developers in building and testing Bubble.io applications.
- Conducted user interviews to identify common issues and shape MVP iterations.
- Built and documented reusable workflows and internal tools as part of the development team.
- Participated in integration tasks for early API connections including SendGrid and Google Sheets.
- Supported frontend prototyping and backend workflow improvements under supervision.
